Shelby Ison

Survey Evaluation Results

Questionnaire: HLTH 120 93

Dear Shelby,

Beginning on the next page, you will find the evaluation results of the course Nutrition.

The overall indicator for the scaled questions is listed first .

The overall indicator is followed by the individual average values of the scales. In the second part of the analysis the average values of all individual questions are listed. If you have any questions please contact your Dean or Instructional Chair.

Thank you for participating in the student evaluation process.

Shelby Ison

Comments Report

2. OPEN ENDED QUESTIONS:

2.1) What suggestions would you offer to the instructor to improve the course?

- Maybe find a way for students to get all of the necessary points from the chapter by not having to read the chapters from the book. This was very time consuming and sometimes stressful to complete on time for quizzes.
- N/a

2.2) What was/were your reason(s) for enrolling in this class?

- I needed this class as a Nursing prerequisite, but I was also very interested in the course material and learning how to create a healthier lifestyle for myself.
- Pursue nursing degree.

2.3) Please list any additional comments.

- Initially, I was apprehensive about the requirements for this class because we were required to do video discussions which is something I've never done before and I was very out of my comfort zone. Honestly after doing them, they really weren't that bad and I enjoyed doing them more than written discussions that were required. I also really enjoyed the EdPuzzle assignments and the knowledge I gained from the videos. Ms. Ison was very good about being responsive to students in a timely manner and expressing what she was expecting from us. I would definitely recommend this class and Ms. Ison to anyone that is required to take it and I also believe that everyone should take it to gain knowledge of this topic.
- Ms. Ison is one of the best teachers I've ever had. I truly adore her personality and the way she teaches class!
